Dear Mr. Zahin,

Transport to all farm in charges had been given during leave and emergency. This is provided to the nearest town.

Currently farms under RRO are not getting this benefit. Hope they too get the transport like PRO.

For you consideration and approval

Regards

Rajan

Dear Sir,

For your kind information, as we know from the beginning all farm in-charge are enjoying transport support during leave and emergency from farm to nearest town. Still we are enjoying under PRO farm. But unfortunately stop under RRO farm even it was a common practice. I talk with RRO, they are asking approval for transport support like previous time.

We know that, most of the farm in-charge are married now and our farm in the remote area. Very difficult to arrange transport to travel with family. Farm in-charge family also sacrificing lot due to bio-security rules in the farm. After stoping transport support, all farm in-charge under RRO are demoralized.

So, I am requested to approved transport support during leave and emergency time again for farm in-charge under RRO. I hope it will encouraged them for better performance in future.

Best Regards Monir
